## ABOUT US

Arrow Pipes & Fittings FZCO was established in 2002 under its parent company, Rockwell Trading LLC, which started in 1992, and has over the years transformed itself into a leading stockist and supplier of Seamless, ERW, SAW Pipes, Fittings and Flanges in the UAE and neighboring Gulf Countries.

## » OUR VISION AND MISSION

“To apply Arrow’s very own positive energy of people, and to be of significant assistance to major Oil and Gas, Petrochemical, Oil Field Contracting, Steel Fabricating and Ship Repairing organizations all over the world in the years to come, with a positive outcome for both.”

Our mission is to provide our customers with quality and variety of Carbon Steel products, in the right place at the right time, and exceeding service quality. Together, with a focus on communications, quality and employee empowerment, we will perform as a professional, ethical and a full service organization, while maintaining the ideas of respect, reward and integrity.

Our aim has been to provide clients with access to the largest range of authentic products and also to ensure that our suppliers stay well penetrated in the markets that we cater to, in both project & inventory sales. Focused on exceptional services and an unmatched range in the industry, our continual effort is to provide maximum advantage to our clients. Keeping this in mind, we have made sure not only to cater to clients requirements during bidding and ordering stages, but also to provide outstanding After Sales Services.

As part of the centralized approach by our Managing Director Mr. Santani, stocking facilities need to be in complete control and hence, they have been maintained in Jebel Ali free zone as the port proves to be more than helpful to ship our products all over the world- this conforms to our company’s vision.

» STOCKS OF THE COMPANY

- Grade : API5L Gr. B/X42/X52/X60 PSL1 & PSL2.
- Origin : JFE Steel Corporation, Japan

## » QUALITY ASSURANCE TO THE CUSTOMERS

Our quality control team has always provided Mill Test Certificates for all products irrespective of the quantity supplied. Our dedicated team thoroughly checks each product so we do not fall short of our clients' expectations in any way; The company ensures and approves every material from the mills and also the materials going out of the company as it is dispatched. We, as an extra initiative also provide stenciling for projects on pipes for our major listed oil partners.

Pipes, fittings and flanges are manufactured in lines of API as well as ASTM standards. The quality department has allocated a "Quantine Area" for the non-conforming materials, thereby, ensuring its customers to receive only the best quality products.

## » DATABASE BACK UP OF RECORDS

All the company's products and Test Certificates are traceable for at least 5 years through the back up of our computerized information system of stocks and subsequent sales details. The original certificates of the products can be produced to customers for viewing if required. The company is also equipped with Documents Management System Software wherein all the Test Certificates are stored for instant retrieval on request.

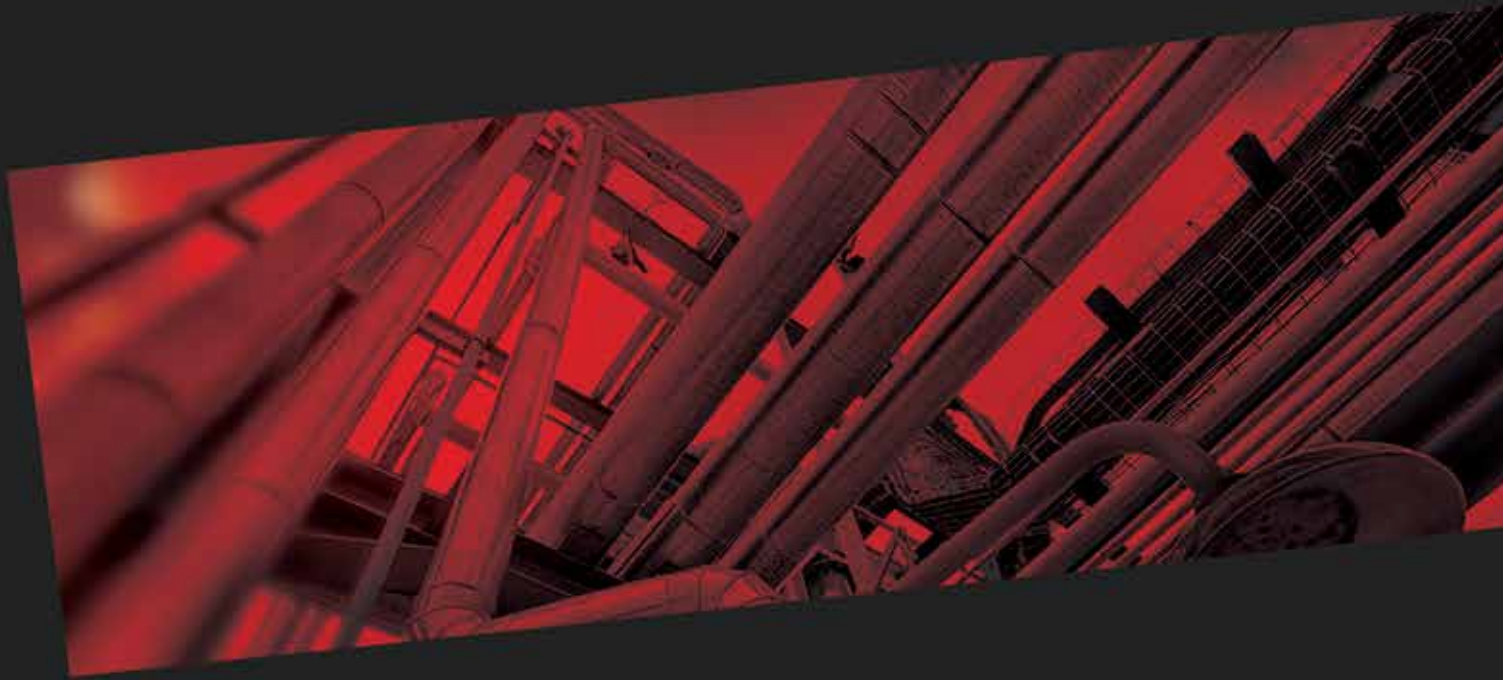

## » PRINCIPLED AIM OF THE ORGANIZATION

The company maintains a stern policy of importing solely from major ISO 9000 certified manufacturers from European and Asian countries. With the strength of our professional personnel, and having been certified for ISO 9001-2008 quality standards, the company is confident of supplying quality products to all its clients, to their ultimate satisfaction. The growing list of satisfied customers itself certifies the quality conscience of the company as a whole, which in turn brings the company's principled aim of "Customer Satisfaction" to the limelight.
